Quimdis distributes Natural Remedies' range of nutraceutical ingredients

Natural Remedies has decided to entrust Quimdis with the distribution of its range of nutraceutical ingredients as of May 1, 2019 for France.

This collaboration completes the range of products offered by the Quimdis dietary sector, whose commercial, technical and regulatory teams remain at your entire disposal for any project.

Natural Remedies is one of the leading research-driven herbal healthcare companies from India. Its competency lies in manufacturing standardised herbal extracts. They integrate traditional knowledge of herbs and modern science to create world-class products.

5 branded extracts: **Turmacin®** (Joint Health), **Gutgard®** (Gut Health), **BacoMind®** (Cognitive Wellness), **Kalmcold®/AP-Bio®** (Immune Health) and **Ocibest®** (Stress Management) which are backed by clinical trials published in reputed journals.

Some of these products have US & Australian patents and are also registered by TGA, ANVISA & KFDA. All products are compliant with US & EU regulations for pesticide limits, heavy metals & aflatoxins. State-of-art R&D and production facilities are NSF-GMP, ISO 9001:2000 and ISO 22000:2005 certified. Its expertise includes fully traceable supply chain combined with sustainable harvest programs thereby offering global clients a one-stop-shop for premium quality standardised herbal extracts.

Mr. Jean-Francois Quarre, President & Chairman of Quimdis signed the agreement with Mr. Anurag Agarwal, Managing Director of Natural REMEDIES, Bangalore India. "Adding Natural Remedies to our list of approved principles is another important value addition to the strong list of suppliers and also increases our product portfolio with highly scientifically studied branded products" said Mr. Quarre.

Mr. Anurag Agarwal, MD& CEO of Natural Remedies said, "As we expand our footprint across the globe, partnering with Quimdis in France is an important strategic decision to deliver higher value propositions to our customers. We are confident that Quimdis with their strong distribution network, infrastructure and technical capabilities in France will deliver superior customer satisfaction".

Quimdis established in 1988 at Levallois-Perret, France is a European distributor of raw materials for the pharmaceutical, dietary, food, feed, cosmetic and perfumery industries. As a specialist in the research, fine-tuning and distribution of raw materials, Quimdis has doubled its revenue since the beginning of 2000 and is now reporting figures of 94 million euros per year, of which 45% of the revenue is achieved on exports to over 30 countries in Europe, Asia, Africa and North America. Currently Quimdis stocks more than 750 products at our warehouse which are worth more than 35 Million Euros. This gives the biggest advantage of supplying our customers with products with very short lead time.
